PEOPLE*

# Our Values

## Expertise: our product.

We are committed to being experts in offshore wind, continually learning about our industry and sharing knowledge with our colleagues.

## Quality: our approach.

Working safely, surely and securely to meet our Clients' requirements and providing services that are reliable, accurate, clear and on time.

## Creativity: our method.

Seeking new and innovative projects, using our knowledge and experience to create the best solution for every challenge.

## Community: our strength.

We actively collaborate and support others to develop our industry and combat global climate change for the benefit of all our stakeholders.

# Our Team

Our team's experience has helped to deliver 40+ GW of Offshore Wind through working on over 100 major projects across the globe, as both Owners Engineer and part of EPCI Contractor teams.

We use this expertise to deliver high quality and creative solutions to project challenges. We focus on how to help our Clients manage risk and add value at every opportunity.

We collaborate with our network and our Clients in a professional, friendly and transparent way and work to enhance any team we are part of.

# Our Expertise

Our expertise and knowledge base covers all asset types and management processes for delivering an offshore wind project, in both mature and newly establishing markets.

Platforms

Offshore Operations

# Our Team's Experience

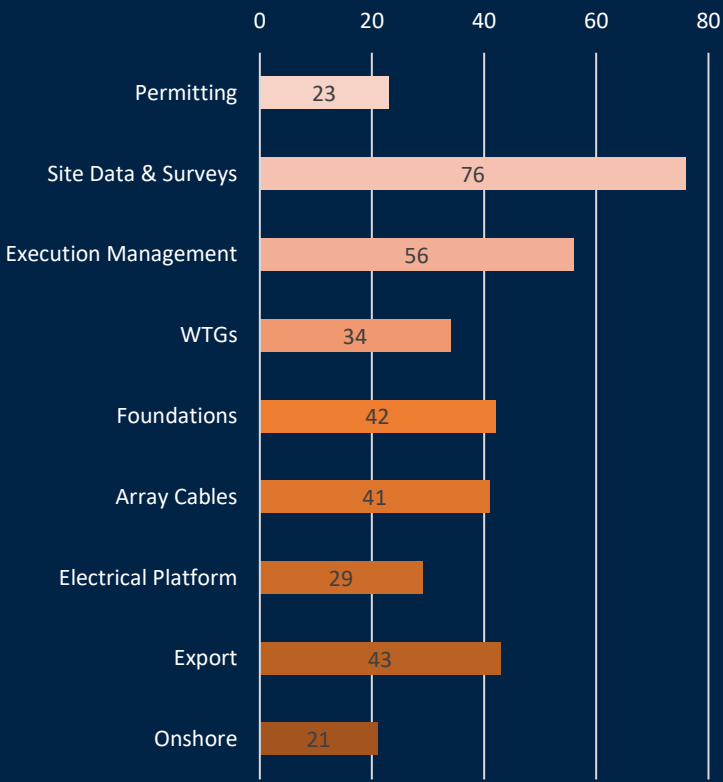

Our wider team have a breadth of global offshore wind project experience. They have worked in the mature and newly establishing markets, sharing knowledge and learning across all the Phases and Packages.

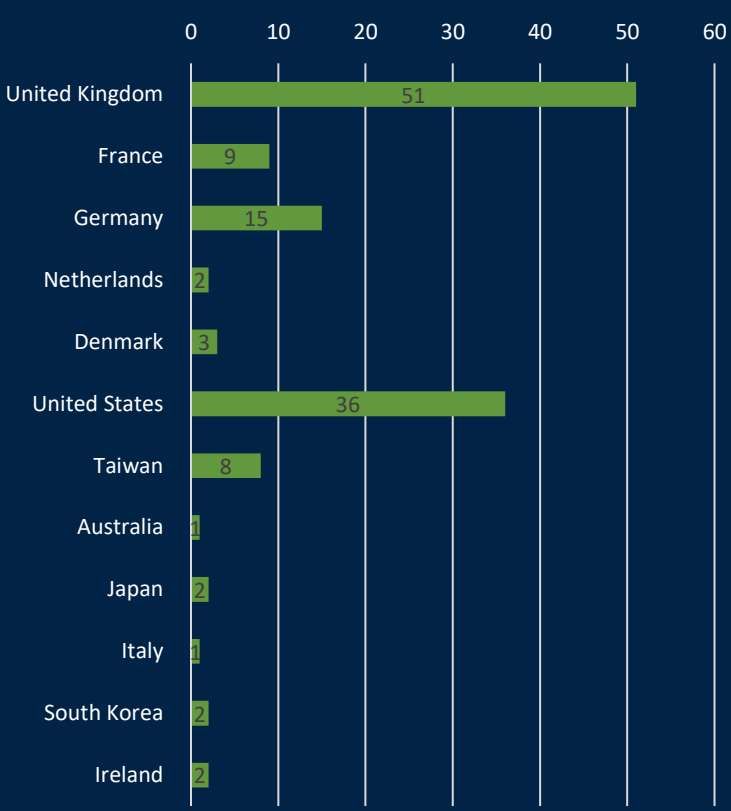

Global Projects by Product Phase

Global Projects by Package

Global Projects By Country

# Our Services

## Audit & Advisory

Targeted advice and recommendations from subject matter experts, derived from global industry knowledge and best practices.

## Deliverables

Robust technical and project management documentation to support procurement, decision making and effective project delivery at all stages.

## Management

Competent project resources, safely and efficiently delivering services directly within project teams, remotely, onshore or offshore.

# Our Clients

We work with established offshore wind developers, new market entrants and tier one suppliers.

We have delivered projects across the globe and are currently active in Europe, North America and Asia.

We seek challenging and interesting projects where we can use our expertise and creativity to provide the most value to our Clients and their projects.

# What our Clients say...

“The insight into the offshore construction industry that OCA provides is exceptional. We thoroughly enjoyed our first interaction together and are looking forward to future endeavours.”

“Very professional and committed to the tasks needed. Quickly got on board with what was required. A very enjoyable experience with competent people.”

“Very good expertise, knowledgeable, people easy to work with. Able to support on multiple aspects and mobilise additional resources as required to support a variety of topics.”

“Dedicated and responsive. Market knowledge and the ability to understand the need of the customer. Always a good experience to work with you.”
